

# Network for Earthquake Engineering Simulation

## Upcoming Researcher Workshops

### STRUCTURAL FACILITIES

NEES large-scale structural facilities at the University of Illinois at Urbana - Champaign and the University of California at Berkeley are offering researcher and facility user workshops. The UC Berkeley event is focused on hybrid simulation and covers OpenSees and OpenFresco.

**When: June 5-6**  
*Where:* NEES@Ullinois  
 Contact: Dan Kuchma  
[kuchma@uiuc.edu](mailto:kuchma@uiuc.edu)

**When: August 21-22**  
*Where:* NEES@UCBerkeley  
 Contact: Don Clyde

### GEESD NEES DEMONSTRATION DAY

A NEES Equipment Demonstration Day is planned for the Geotechnical Earthquake Engineering and Soil Dynamics Conference in Sacramento. NEES equipment from UC Davis, the University of Texas and UCLA will be demonstrated.

**When: May 20**  
*Where:* NEES@UCDavis  
 Contact: Dan Wilson  
[dxwilson@ucdavis.edu](mailto:dxwilson@ucdavis.edu)

### LIFELINE FACILITY

The Cornell Lifelines Equipment Site will provide an introduction to lifeline systems and lifeline engineering. Presentations and discussions will cover lifeline research areas, lifeline testing equipment and planning lifeline experimental programs.

**When: July 21-22**  
*Where:* NEES@Cornell  
 Contact: Joe Chipalowsky

### SHAKE TABLE FACILITIES

A joint researcher workshop on NEES shake tables will be presented by NEES staff from the University of California at San Diego and the University of Nevada at Reno. The workshop includes lectures, facility tours, demonstrations and hands-on application exercises.

**When: September 4-5**  
*Where:* NEES@UCSan Diego  
 Contact: Dan Radulescu  
[dradulescu@soe.ucsd.edu](mailto:dradulescu@soe.ucsd.edu)

### GEOTECHNICAL CENTRIFUGE FACILITIES

The NEES 4<sup>th</sup> Annual Centrifuge Research and Training Workshop will be held at the NEES Facility at Rensselaer Polytechnic Institute. The three day program is jointly led by NEES staff from RPI and the University of California at Davis. The workshop program includes equipment demonstrations, hands-on sample and model preparation, sensor calibration and instrumentation, and data viewing/archiving.

**When: September 8-10**  
*Where:* NEES@Rensselaer
